

Thank you for trying Business Bingo for Win 7 and Win 8.

DummyAd Image: When you launch Business Bingo, a folder titled "Business Bingo Images" is added to your Documents folder. Drag the DummyAd.tiff file to this folder to get you started until you make your own images which should be square, at least 200 x 200 pixels, and have .tif, .tiff, .jpg, .png, or .gif format. Then restart Business Bingo.

There are four important computer settings:

Display Resolution: Set the display resolution for 1280 x 695 or higher.

Win 7: Click on Start, Control Panel, Display, Change display settings and choose 1280 x 695 or higher. Click OK.

Win 8: Select the Charms, Click on Settings, Control Panel, Display, Adjust Resolution, Change display settings and choose 1280 x 695 or higher. Click OK.

Text Size: Set the display for Smaller - 100%.

Win 7: Click on Start, Control Panel, Display and choose 100%. Click Apply.

Win 8: Select the Charms, Click on Settings, Control Panel, Display, and choose 100%. Click Apply.

Taskbar: Auto-Hide the Taskbar.

Win 7 and Win 8: Right-click the Taskbar, select Properties and click Auto-Hide the Taskbar. Click OK.

Speaking Rate: Set Speaking Rate to Normal or slightly slower.

Win 7: Click on Start, Control Panel, Speech Recognition, Text to Speech and select Normal or slightly slower. Click OK.

Win 8: Select the Charms, Click on Settings, Control Panel, Speech Recognition, Text to Speech, and select Normal or slightly slower. Click OK.
