MANAGizer^{GM}

Welcome to **MANAGizer GM**!

„Finally a professional Layout Tool for FileMaker and Web Design!“

A tool you won't want to miss...

- create layout objects with gradients in high quality.
- create professional design objects for FileMaker and Web
- choose up to 100 linear or radial gradients only with clicks of your mouse
- select transparency for any gradient
- save your work in **MANAGizer GM**'s database or save it as a .PNG file to a place of your choice
- create rectangles with 1,2,3 or 4 rounded corners
- select the background (white, black, transparent or pattern (one out of 128) for your objects
- move the center of the radial gradient with a click of your mouse
- select the angle of the gradient of your object
- use your objects in other applications with copy and paste
- determine colors and transparencies by clicking your mouse
- recover stored object parameters by just clicking on it
- use the 7 day demo version and unlock it with license codes at any time.
- the window of **MANAGizer GM** is free sizable for larger objects
