

Troï Graphic Plug-in™ 1.1

Troï Graphic Plug-in is copyright 2000-2001 of Troï Automatisering. All rights reserved (September 24th, 2001).

Thank you for your interest in the **Troï Graphic Plug-in**. This is a FileMaker Pro™ plug-in, which adds Graphics functions to FileMaker Pro. With it you fill container fields with any RGB color you want, capture screenshots and make thumbnails of images in the database.

This cross-platform plug-in is compatible with Filemaker Pro 4, 5 and 5.5. Finally you can do things you thought were still impossible to do with FileMaker Pro. Now you can create more powerful databases by using this plug-in!

INSTALLATION INSTRUCTIONS

INSTALLING A (TROÏ) PLUG-IN FOR THE FIRST TIME.

-For Macintosh: put the file "Troï Graphic Plug-in" from the folder "MacOS Plug-in" into the "FileMaker Extensions" folder in the FileMaker Pro folder. If you have installed previous versions of this plug-in, you must remove them.

-For Windows: put the file "trgraph.fmx" from the directory "Windows Plug-in" into the "SYSTEM" subdirectory in the FileMaker Pro directory. If you have installed previous versions of this plug-in, you must remove them.

You may want to install other plug-ins before proceeding. Then (re)start FileMaker Pro. The Troï Graphic Plug-in will display a dialog box, indicating that it is loading and showing the registration status. You can now open the file "All Graphic Examples.fp5" to see how to use the plug-in's functions.

Who wrote it?

Troï Number Plug-in was designed and implemented by Peter Baanen of Troï Automatisering <peter@troï.com>. You can also visit the Troï web site at: <<http://www.troï.com/>> for additional information.

Troï may also be reached by postal mail at:

Where can I get the latest version and more information?

The latest versions of our software are available for downloading at our web site:

<http://www.troi.com/>

Here you will also find late breaking information, company information, FileMaker tips and more.

System requirements Mac

Hardware: Power Macintosh Computer or later

Software: Mac OS version 8.1 through Mac OS 9.1 or Mac OS X 10.1 or higher.

System requirements Windows

Hardware: Intel-compatible computer 486/33 or later

Software Requirements: Windows 95, Windows 98, Windows Me, Windows NT 4.0 (Service Pack 3), or Windows 2000

FileMaker requirements

FileMaker Pro 5 or higher or FileMaker Developer 5 or higher.

NOTE: This plug-in should also run without problems on any machine that is able to run FileMaker Pro 4.0, FileMaker Pro 4.1 and runtimes from FileMaker Developer Edition 4.0 as well as on Mac 68k machines. However, we have not tested this, and we don't provide support for this. Some functions might not be available for each platform or FileMaker version. See the functions documentation for details.

Troi Graphic Plug-in is a commercial product

You can try-before-you-buy. This means that you are free and invited to test the plug-in 30 days before you pay. You may also make copies of the original and complete package (including this Read Me file) and distribute it to customers, friends etc. However, you may not distribute a modified or licensed version.

Use Troi Graphic Plug-in at your own risk:

Although Troi Graphic Plug-in was tested carefully, we can not be responsible for any damages resulting from using this software. Also please try it out on a test database. Your system may be using an extension (unknown to us) that interferes with the proper functioning of Troi Graphic Plug-in.

We like to hear feedback on the benefits and shortcomings of the plug-in. Please include the platform and operating system in your suggestions and comments.

What are the costs?

Troi Graphic plug-in has the following pricing:

| | <u>Graphic plug-in</u> |
|--|----------------------------|
| 1 or more single user licenses (per user): | \$ 49 |
| Site license: | \$ 250 |
| World-wide license: | \$ 400 |
| Developer distribution license: | \$ 125 |

A Site License covers all locations for your organization within a 160 kilometer radius of your site (100 miles). One big advantage of a Site License is that you do not need to keep track of how many people at your site are using the software. A World-Wide License covers all locations for your organization on the planet earth.

All Troi Plug-in are available for Macintosh and Windows. When ordering please indicate for which

platform you are ordering.

Special licenses for developers of FileMaker Pro solutions are available. Also sub-licensing is possible. Please contact Troi for information about this. Plug-ins do not work with the FileMaker Pro SDK version 3.0. This plug-in works with the 4.0 Developer edition version.

Upgrades from previous versions

If you previously bought a license the upgrade is free and the registration you have should work with this version.

All Troi Plug-ins are available for Macintosh and Windows. When ordering please indicate for which platform you are ordering.

How to pay?

Paying for a license is easy. We have several ways to pay. More information on this can be found on our order page on our web site: <<http://www.troi.com/software/order.html>>. You can pay online via credit card or via Kagi, which also accept checks and cash monies.

Protection and Unlocking the application

This plug-in has a protection scheme. After you pay Troi Automatisering will tell you how to indicate to this plug-in that you have paid the licence fee.

If you do not have an e-mail address, please enter your complete postal address and remember, we do not know what country you live in so please enter that into the postal address also.

After you've supplied the payment data the following is changed:

- the 'unlicenced' warning is replaced by your name.
- the flash screen that shows at the first time the plug-in is used is removed. Of course also the delay (which is longer after 30 days of use) will be removed.

Bug reports and Wish list

If you find a bug, please report this by e-mail: info@troi.com. If you have any comments or other functions that you think need to be added, please notify us! We have a lot of ideas for this plug-in, so be sure to check our web site for new plug-ins and improved versions.

And please pay for software you keep using, so that the wish list gets reality.

Versions

1.1 (24-Sept-2001)

- Updated the example files and the download package.

1.1 (13-Aug-2001)

- Tested with FileMaker 5.5 and ported to Mac OS X. The Mac version of the plug-in is now a so called 'Super Fat' plug-in that will run on Mac OS 8, 9 and Mac OS X.

1.0.1 (20-Apr-1999)

- added a built-in 'register function' for developers of runtimes.

1.0 (28-10-98) First release

1.0b1 (25-9-98) First Beta release
